## About

# PIET BOON

After his studies at the technical school in Amsterdam, Piet Boon began his career as a building contractor, but he would soon evolve into a high-profile Dutch designer. Today, Studio Piet Boon is an internationally operating total concept design company, where a

team of architects, stylists and design professionals is continuously driven to exceed expectations, to stay true to the studio's reputation as the most renowned Dutch design studio in the world.

**WHERE  
MINIMALISM  
AND  
ELEGANCE  
CONVERGE**

# BASE

The collaboration of Studio Piet Boon with Serax reflects a shared passion for beauty, and a commitment to delivering perfection. Merging design, individuality and functionality

has resulted in a sophisticated complete range of tableware, including glassware and cutlery, and cookware - Base by Studio Piet Boon and Serax.

## Base - **Tableware**

Base is a tableware collection that stands out for its timeless round shapes. Finished in immaculate white bone China, Base tableware is anything but boring. The neutral color does

justice to dishes. And by playing with the different heights and sizes, you create optically surprising effects every time.

"Where minimalism and elegance converge in  
a pure and seemingly simple design."

**– Piet Boon**

## Base - **Glassware**

The distinctive sleek, round shapes, and the perfect finish of the nine different glasses from the Base Glassware collection follow the trend of Studio Piet Boon's Base line for Serax. On an upright foot in the centre of a perfectly round circle, the four wine glasses, two champagne glasses, and the beer glass not only steal the show, the potassium glass also makes

them particularly strong. The two water glasses have been given a sandblasted effect, as a result of which fingerprints are less likely to remain on the glass. The glasses from the Base Glassware collection are packed as a set of four in beautiful gift boxes.

## Base - **Cookware**

Base Cookware guarantees sleek design with innovative looks and unsurpassed functionality. The basic range consists of a saucepan, a frying pan, and a small and large cooking pot, all of them comprised of three layers. On the interior, stainless steel was used for the highest possible food safety, followed by a layer of aluminium for better heat conduction, and on the exterior a layer of matt stainless steel or copper

as the finishing touch. The Base Cookware pots and pans are taller than usual to prevent splashing. The flat lids with integrated handles emphasise the special proportions. The simple stainless-steel handles and the lid handles that align perfectly with those of the pans are provided with a protective colourless or black powder coating. The entire cooking set is suitable for all heat sources, including induction.
